SHAMANIC GIFTS

THE NINE SHAMANIC GIFTS

**Do you know deep down inside that you have
Sacred Gifts that need to be shared with the world?**

Have you hidden these gifts and intuitive abilities for fear of not being accepted by others? Have you had spiritual experiences that you haven't been able to make sense of, or haven't been able to trust?

Maybe you've buried these gifts and memories so deeply that you don't even remember who you really are, or what your Divine Purpose is in this lifetime. For most of us, our gifts and Shamanic abilities were shut down and buried by our life's conditioning.

Well, this is a rallying cry to you now, my fellow Lightworker! It's time to awaken the Sacred knowledge you have encoded into your DNA. This is a short, precious life, and you have a profound, Divine Mission to complete. It's time for you to get clear on what that is, and it is time for you to understand your Shamanic Gifts. Humanity needs you now!

What does “Shamanic” mean?

The word “Shaman” comes from the Tungus tribe in Siberia and means spiritual healer or, “one who sees in the dark.” Shamans consciously choose to live in two different worlds at the same time. They have one foot here in the everyday world and one foot on the other side of the veil. They are bridges between the two worlds.

Shamanism is the most ancient spiritual practice known to humankind. Some anthropologists believe that the practice dates back over 100,000 years!

Shamanism is the practice of utilizing nature and quantum modalities to access the infinite field of possibility for exponential healing and transformation. It’s possible for just one Shamanic ritual or ceremony to heal and transform you in a way that would require 30 years of traditional therapy to experience!

What are Shamanic gifts?

Shamanic Gifts are psychic, empathic, intuitive, mediumistic, and healing abilities that we each possess. We each have access to ALL of the Shamanic Gifts listed here, and some of these gifts come much more naturally to us than others.

You can use your Shamanic Gifts in all areas of your life, as another tool in your life skills toolbox. For example, if you are a coach, you can use these gifts to better understand and serve your clients. But what you do to earn money in the world doesn’t have to be directly linked to your gifts. Is it not just as noble and worthy to take these Sacred Gifts and knowledge back to your friends and loved ones, and to serve Humanity at large? The ways to use these Sacred Gifts is literally endless!

How do we use our Shamanic gifts?

Pay attention to your own experiences with your psychic abilities as you continue reading. Your power and confidence in using your abilities will expand with proper training and consistent practice and study.

Each of the Shamanic Gifts can show up as psychic or mediumistic abilities. When they appear as psychic abilities, that means you receive information from other incarnate (living) humans. When it’s a mediumistic ability, that means the information is coming from other disincarnate (non-living) beings. Every medium is a psychic, but not every psychic is a medium.

Our gifts usually show up in combination, meaning that we can use several of these gifts at once. Keep in mind that there are dozens of subcategories that can go under each of the nine Shamanic Gifts listed below.

CLAIRVOYANCE or "clear seeing"

- This is the ability to see anything that is not physically present, such as: objects, animals, people or symbols.
 - Some say this gift shows up as their normal vision state, while others say they must train their minds through meditation or other techniques, or access it with the assistance from spirits to achieve this ability.
 - This gift can show up in many ways, such as: visionary states, seeing auras or energy, seeing orbs, seeing energy waves, seeing visions or symbols with eyes open, visions of images or colors in your mind's eye, seeing disincarnate beings or spirits.
-

CLAIRAUDIENCE or "clear hearing"

- This can come through as hearing vibrations, different languages, half words, vowel sounds, names, or whole sentences.
 - Some mediums hear as though they are listening to a person talking to them on the outside of their head, as though the Spirit is next to or near the medium, and other mediums hear the voices or sounds in their minds as verbal thoughts.
-

CLAIRSENTIENCE or "clear sensing"

- Sensing psychic or mediumistic information with our six senses.
- The ability to have an impression of what spirit wants to communicate, or to feel sensations instilled by spirit.
- Sensations come in many forms: The physical reactions to energy entering the body can feel like tingles, shivers, pins and needles, brushing of air, heat or cold.
- This has more to do with sensations in the body than emotional states.
- Includes clairalience or "clear smelling" and clairgustance or "clear tasting." A medium may smell perfume or tobacco that a spirit used when incarnate. Or, a nutritionist may taste orange juice when the client is low in vitamin C. In every case, the smells and tastes are associative, which means they are connected to the message they are giving clues and information about.

CLAIRSENTINENCE or “clear feeling”

- A medium who takes on the feelings, emotions, ailments, or symptoms of a Spirit, feeling the same physical or emotional problems which the person had before death, is demonstrating clairsentience.
 - When “clear feeling” is felt with those still living it’s called “empathy.”
 - If you are clairsentinent, people have probably told you you’re “too sensitive” your whole life.
 - Empathic responses are sometimes difficult for psychics or mediums to handle or know how to process. It’s important to receive training on how to remove and dispose of these feelings quickly, so as to not take the on the ailments.
-

CLAIRCOGNIZANCE or “clear knowing”

- When you just KNOW something. There’s no thought process leading up to it - it just pops into your mind and there’s a sense of truth that comes with it.
 - Often, a medium will have the feeling that a message or situation is “right” or “wrong.”
 - When developed, this is a powerful tool to help interpret messages.
-

AUTOMATIC WRITING

- Also called “Spirit Writing” or psychography.
- It is like tuning into a radio channel and allowing your hand to write, play music, or type words on a keyboard.
- The actions do not come from the conscious thoughts of the writer.
- Some famous Channels who utilized automatic writing are: Esther Hicks (Abraham), Neil Donald Walsh, Jane Roberts (Seth), and Chico Xavier.

XENOGLLOSSIA

- This is a phenomenon in which a person is able to speak or write a language he or she could not have acquired by natural means.
 - Speaking in tongues.
 - Speaking or writing in Light Languages, which are multidimensional languages that are understood by all on a soul level. It is channeled dynamic frequency encodings of sound and light.
 - Speaking or writing in a language that the person knew in a past life.
-

IRRADIATION

- Specific physical movements being influenced by Spirit or an unknown force.
 - Sometimes this looks like a form of ecstatic dance.
 - Spirits can influence the world by radiating their energy for transmitting messages and instructions, and we can use our being as a sort of radio receiver to receive and transmit these messages and energy, for ourselves, and for Humanity.
-

INCORPORATION or “embodiment”

- Spirits can influence the world by “incorporating” their energy with ours to move and direct us. The act of allowing yourself to be inhabited and moved by spirit is called “incorporation.”
- This can sometimes look like a form of trance or ecstatic dance.
- There are different degrees of incorporation. Someone could be 10%, 20%, 80%, or even 100% incorporated. When someone is 100% incorporated they are completely embodied by Spirit.

“Not using our God-given Shamanic abilities is like going through life endlessly looking everywhere for your car keys when they’re right in your pocket.” –Rose Cole
